

MKMODAATELIER

www.mkmoda.com

MK MODA ATELIER offers production expertise by developing innovative methods thanks to the principle of “living design”, investments and technologies. Our brand continues to work in a global position by gaining strength with the determination of having started with today's vision in 2001.

The existence of MK MODA ATELIER, which grows day by day with the investments it has made in mastery, talent, innovation and technology, by placing the concept of design as the basis of the product and production, has gained even more meaning with its current capacity. Our company, which gained strength in this process, joined the players in the international arena with a new perspective.

With a new perspective with the imagination and mastery of MK MODA ATELIER

MKMODAATELIER

MK MODA ATELIER offers quality products equivalent to world brands with its total quality management, continuous improvement approach, private label services; It is taking firm steps towards meeting the needs of final consumers in the domestic market and targeting high exports.

It raises the awareness of its employees and provides safe working areas by constantly improving working conditions, by organizing trainings and events with its internal communication, which protects the personal rights of employees and increases their motivation.

A strong organization with its vision and mission: MK MODA ATELIER

MKMODAATELIER

With the philosophy of reflecting its acquisitions to its business, adding difference, creating added value with quality and design elements, MK

MODA ATELIER is working to become a Turkish brand in the international arena in the near future and to add a new value to the sector globally.

DESIGN FOR HAPPINESS

MK MODA ATELIER has brought a breath of fresh air to the bridal gown industry with products of the same quality as world brands, and modern and aesthetic designs.

By promising original design and customized solutions, it offers the opportunity to reach new concepts with effective approaches for designers and medium and large-scale workshops.

MK MODA ATELIER, which reshapes the design concept with functional, aesthetic products and innovative ideas, is always working to be the best for both the brands it serves and the end consumers.

MKMODAATELIER

FROM YARN TO KNITTING...

FROM PRODUCTION TO SHIPMENT

MK MODA ATELIER always keeps its vision up-to-date in order to maintain its high quality perception, to establish sustainable value chains with its business

partners and suppliers, to be innovative and to be known as an exemplary organization working with world brands in order to steer the sector.

MKMODAATELIER

A vision that will appeal to the world and smart innovations...

MK MODA ATELIER, which brings trust and privilege to its business partners, suppliers and customers with its patented designs, aims to provide new happiness with its quality ranging from B2B to B2C.

It renews its knowledge, sectoral dominance and power in the production of textile, fashion and wedding dress needs with its broad perspective and presents it to the world with its brands that make a difference in their field.

MKMODAATELIER

PATENTED APPLICATIONS

MK MODA ATELIER continues to make a difference in its products with its patented products that provide practicality and great convenience in the design/production/use triad, and increase happiness and satisfaction, with the awareness of its role as a guide in the sector.

Bone Locker®: We offer the easiest solution for fixing petticoat hoops.

Double Wire and Stitch: We ensure that unassembled and fixed wire petticoats are produced extremely robust and the petticoat diameter remains constant.

OUR CERTIFICATES

MK FASHION ATELIER works to improve its work in line with the needs of the sector and to provide quality growth.

It applies the raw materials, semi-finished products, materials and equipment it uses in accordance with the qualifications of the certificates, with the production approach supported by the certificates issued by national and international institutions, and makes the superior quality controlled and more economical by weaving its tulle and fabric in its own facilities with the same standards of workspace and personnel.
